# THE ONLY FRENCH HOSPITAL NETWORK

100% dedicated to the fight against cancer

*Care – Research – Education – Innovation*

Unicancer is the federation of French comprehensive cancer centres (Fccc), a major player in cancer research and a network of 19 private, non-profit healthcare centres specialised in oncology, brought together in a health cooperation group.

## OUR VALUES

### EXCELLENCE

In a quest for excellence, our care and research teams mobilise to be at the forefront of the fight against cancer.

### SOLIDARITY

Non-profit and accessible to all, the Unicancer model offers comprehensive, personalized and innovative care.

### HUMANISM

Patients are involved throughout their treatment pathway, as partners of the healthcare professionals.

### INNOVATION

Driven by a research culture, our network offers patients rapid access to the latest innovations

## UNICANCER IS...

More than 22,000 people involved in care, research, teaching and innovation on a daily basis.

Our university hospitals play a major role in cancer care and research. They provide a 100% public service, accessible to all, throughout France. They provide comprehensive, multidisciplinary cancer treatments, guaranteeing quality healthcare to more than 530,000 patients every year.

Driven by strong human values, they offer a unique model of shared decision-making that involves patients in their treatment pathway. As the French leader in oncology research, the Research department of the Unicancer federation and the 18 French comprehensive cancer centres (Fccc) are the leading academic

sponsors of clinical trials in this field, on a European scale, with a strong worldwide recognition.

Innovative by nature, the Fccc are driving the major developments in the fight against cancer, to constantly improve care, find the best treatments, reduce the after-effects and prevent tumours. Our network does everything possible to provide patients with earlier detection techniques and increasingly innovative treatments. Alongside patients, we are fighting cancer on a daily basis and building the cancer care of tomorrow.

# Key figures of the Unicancer network

## A NATIONAL NETWORK FOR GREATER LOCAL PRESENCE

18

French comprehensive cancer centres

spread across

21

hospital sites

+1 affiliated centre

## IN FRANCE:

of women with breast cancer

of women with a gynaecological cancer

of patients with endocrine cancer

## ARE TREATED IN THE CENTRES OF OUR NETWORK

ALMOST  
700

active clinical trials promoted in the network by the Fccc and Unicancer R&D

MORE THAN  
14%

of patients treated in Fccc are included in a clinical trial, compared to an average of 8.5% in French healthcare facilities

12

CLIP<sup>2</sup> early stage trial centres accredited by INCa out of 19 in France

1/3

of French international publications in oncology

## APPROXIMATELY

530,000

cancer patients treated each year

## A HIGHLY QUALIFIED AND SPECIALISED TEAM

MORE THAN

22,000

employees

## A RECOGNISED EXPERTISE

11 national reference networks for rare adult cancers include Fccc, out of 15 in France

15 centres specialised in paediatric oncology out of 47 in France

12 oncogenetics laboratories accredited by INCa out of 26 in France

## STATE-OF-THE-ART EQUIPMENT

Particularly innovative equipment such as proton therapy centres, cyberknife, Intrabeam, tomotherapy, etc.
